

Investigations Guide Vocabulary

Investigation 1: Grass and Grain Seeds

alfalfa
blade
compare
fertilizer
grain
lawn
leaf
light
mow
nutrient
observe
plant
predict
root
ryegrass
seed
soil
sprout
stem
taproot
wheat

Investigation 2: Stems

bud
cutting
eye
node
potato
tuber

Investigation 3: Terrariums

behavior
carnivore
consumer
desert
energy
food chain
forest
grassland
habitat
herbivore
interdependent
map
ocean
pond
predator
producer
rain forest
shelter
structure
survive
terrarium
transfer
tundra
wetland

Investigation 4: Growth and Change

bulb
carrot
decompose
garlic
life cycle
metamorphosis
offspring
onion
parent
radish
vermiculite

Science Resources Vocabulary

Investigation 1: Grass and Grain Seeds

air
animal
basic need
combine
flour
food
grain
harvest
leaf
nutrient
plant
root
sow
sunlight
wheat

Investigation 2: Stems

NA

Investigation 3: Terrariums

carnivore
desert
forest
grassland
habitat
herbivore
living
nest
oxygen
predator
rain forest
shelter
structure
survive
terrarium
thrive
tundra

Investigation 4: Growth and Change

marsh
offspring
