

Investigations Guide Vocabulary

Investigation 1: Mealworms

abdomen
adult
air
antenna
bran
darkling beetle
dead
dropping
egg
exoskeleton
food
habitat
head
insect
larva
leg
life cycle
living
mealworm
molt
molting
observe
organism
pupa
segment
space
stage
thorax
water

Investigation 2: Brassica Seeds

brassica
bud
fertilizer
flower
fruit
germinate
leaf
light
nutrient
plant
pollen
root
seed
seedling
seedpod
soil

sprout
stem

Investigation 3: Milkweed Bugs

bug
female
hatch
male
mating
milkweed bug
nymph
proboscis
shelter
variation

Investigation 4: Silkworms

clasper
cocoon
evidence
eyespot
metamorphosis
mulberry leaf
proleg
silk
silkworm
spinneret
spiracle

Investigation 5: Butterflies

butterfly
caterpillar
chrysalis
nectar
offspring
painted lady
waste

Science Resources Vocabulary

Investigation 1: Mealworms

adult
basic need
egg
habitat
insect
larvae
living
nutrient
seed
survive
thrive

Investigation 2: Brassica Seeds

flower
fruit
life cycle
reproduction

Investigation 3: Milkweed Bugs

variation
organism

Investigation 4: Silkworms

nymph
pupa

Investigation 5: Butterflies

amber
fossil
marsh
offspring
pupate
resin
