

FOSS Plants and Animals Module

Vocabulary/Glossary Terms

NGSS Edition © 2019

Investigations Guide Vocabulary

Investigation 1: Grass and Grain Seeds

alfalfa
blade
fertilizer
function
grain
lawn
leaf
light
mow
nutrient
observe
plant
root
ryegrass
seed
soil
sprout
stem
structure
variation
wheat

Investigation 2: Stems

bud
cutting
eye
node
potato
tuber

Investigation 3: Terrariums

behavior
desert
forest
grassland
habitat
map
map key
ocean
pond
predator
rain forest
shelter
survive
system
terrarium
tundra

Investigation 4: Growth and Change

bulb
carrot
garlic
offspring
onion
parent
radish
vermiculite

Science Resources Vocabulary

Investigation 1: Grass and Grain Seeds

air
animal
basic need
combine
flour
food
grain
harvest
leaf
nutrient
plant
root
sow
sunlight
variation
wheat

Investigation 3: Terrariums

carnivore
desert
forest
grassland
habitat
herbivore
insulation
living
nest
oxygen
predator
rain forest
shelter
structure
survive
terrarium
thrive
tundra

Investigation 4: Growth and Change

offspring
