MOON VOCABULARY

- **Craters**: round structures of various sizes with various details
- **Highlands**: light-colored areas with lots of rough mountains and craters
- **Maria** (MAH•ree•ah), singular **mare** (MAH•ray): large dark-gray or black areas that are fairly smooth. *Mare* means ocean in Latin.
- **Rays**: the white lines that extend in all directions from some craters
- **Rilles**: structures that look like narrow canyons or stream courses
