astronomical unit (AU)

1 AU = 150,000,000 km

One astronomical unit is equal to the average distance from Earth to the Sun.

light-year (ly)

1 ly = 63,000 AU
1 ly = 9.5 trillion km

One light-year is equal to the distance light travels in 1 year, traveling at 300,000 km per second.
