

# INV. 2 ACTIVITY—ROCKS SIZES IN A BOTTLE

---

## Art Project

### Materials:

- One recycled plastic soda or juice bottle (1 L or 2L)
- Rocks
- Water

### Suggested Procedure:

Collect pebbles, gravel and rocks of different sizes but small enough to fit into the opening of your bottle.

Sort the collection by size

Make layers of different size rocks starting from the largest to the smallest. Put the largest size in the bottle first and then the next size and continue making layers.

Add water.

Draw and label the different sizes in your notebook.
