

# HOME/SCHOOL CONNECTION

## Investigation 2: Observing Weather

Make a cloud window with your child, using these directions.

**Materials:** Construction paper, scissors, tape

### Procedure

1. Cut a 9" × 12" sheet of dark construction paper (a shopping bag will do) into four equal strips (2 1/4" × 12").

2. Form a rectangle with the four strips, overlapping one edge 1/4" over another. Tape it together.

3. Tape the cloud window to a glass window in your house. It will provide a reference point to help your child detect movement of the clouds in the sky.
