Investigation 3: Wind Explorations

Make a whirligig with your child, using these directions.

Materials: Scissors, tape, and a piece of string

Procedure

1. Cut out the whirligig along the spiral line.
2. Tape a piece of string to the X in the middle of the whirligig.
3. Hang the whirligig by the string and blow on it. What does it do?
4. Use the whirligig to find places where the air is moving. Try outside, by a window, or in front of a fan. Where does it move the fastest?
