Investigation 2: Stems

In class, we are observing how stems grow and sprout. There are many plant stems that we enjoy at our table and see in the market.

Next time you go shopping with your child, please take this checklist and a pencil with you. Ask your child to check off any of the stems that he or she can find. If you find others, write them down.

asparagus

brussels sprouts on a stem

white potato

red potato

broccoli

parsley

celery

artichoke (with stem)
